

«Ein Ort, der Wissen schafft» - Als eine der führenden Wirtschaftsuniversitäten Europas engagiert sich die Universität St.Gallen (HSG) in der Ausbildung von über 7300 Studierenden und bietet als eine der grössten Arbeitgeberinnen der Region rund 2400 Mitarbeitenden ein attraktives und innovatives Umfeld in Forschung, Lehre, Weiterbildung und Verwaltung.

## DLT-/Blockchain-based Ecosystems

**Be part of the blockchain movement! We are offering you a doctorate in latest blockchain/DLT topics combined with the opportunity to apply your research and build your knowledge within challenging industry projects. The Institute of Information Management at the University of St. Gallen (IWI-HSG) in cooperation with the Business Engineering Institute St. Gallen AG (BEI) searches doctoral students.**

## Doctoral Student „Blockchain Ecosystems“

### Who we are:

We are a young and flexible team of researchers and practitioners working on tomorrow's blockchain solutions. We build upon research from the previous two decades. Our research results are tightly linked to real-world problems, which is ensured by strong cooperation with renowned university and technology partners. Research topics include technology-driven DLT business models and ecosystems as well as a broader view on disruptive technologies.

### Your dissertation:

- You will work on your cumulative dissertation and related projects
- Topics range from strategic ecosystem modelling to technical blockchain research
- We will jointly shape your topic based on your strengths and preferences

### What you should bring:

- Expertise and experience
  - Profound knowledge in Blockchain / Distributed Ledger Technologies
  - Technological affinity and a profound business understanding
  - Programming experience in Java and web-centered languages (recommended)
  - Work experience preferred (e.g. consulting, IT department, business development)
- Commitment and flexibility
  - Professional appearance and ability to interact with C-Level
  - Willingness for occasional travelling and working on our partners' sites

### Your benefits:

- Pursue your academic achievement
  - Dissertation at IWI-HSG (Prof. Dr. Reinhard Jung), employment at BEI (Dr. Michael Fischbach)
  - Intensive sparring by BEI post-docs with long-term practical experience
  - Work location: Zurich
- Gain experience that matters
  - Participation in industry consulting and implementation projects
  - High degree of flexibility, self-responsibility and possibility to influence results
  - Possibilities for professional pursuance of your ideas after finishing your dissertation
- Grow your network
  - Excellent opportunities for enlarging your personal network in the DLT community
  - Intensive collaboration with multi-nationals and technology firms across all industries

Willing to participate? We are happy to receive your application at [reinhard.jung@unisg.ch](mailto:reinhard.jung@unisg.ch).
